Who are we

EN is a growing European network for organisations that support social entrepreneurs and impact-driven leaders. Our members are based in 20 countries and represent over 100.000 organisations throughout Europe and beyond.

We are a strategic partner of the European Commission and an observer to the United Nations Task Force on Social and Solidarity Economy (UNTFSSSE). Euclid Network enhances the field of social entrepreneurship through knowledge exchange, capacity building, networking and international advocacy.

Our mission

Founded in 2007, Euclid Network has been a frontrunner in shaping the European impact ecosystem in the past decade. During the recovery period, more than ever, collaboration and knowledge-sharing is key in achieving true results. The global community of changemakers is growing and so is our Network. Our members make creating impact their daily business. Our vision is to see social enterprise and impact driven leaders empowered to drive positive change in Europe and beyond.

Working with members and partners, we:

- **Create connections** between social enterprise leaders
- **Share** and produce leadership, professional and entrepreneurial knowhow
- **Influence** European policy and funding and strengthen members' and network participants' EU engagement
- **Raise the visibility** and understanding of social enterprise in business, academia, government and the wider society

Our members

EN celebrates the diversity of all actors involved in the social finance field; social enterprise networks, civil society organisations, incubators, universities, social funds and other impact-driven support organisations. People and entities who have the openness to learn from, encourage and inspire each other to drive positive change.

They represent over 100.000 social enterprises and impact-driven organisations. Covering 20 EU European and neighbouring countries

Member benefits

EN is able to offer affordable membership fees thanks to our track record in winning consistent long-term EU funding. This ensures great value content, networking and capacity-building for member organisations.
